

SYLWRAP Case Study

Golf Club Repair Leaking Dishwasher Pipe

A dishwasher pipe at a golf clubhouse found leaking on a Sunday morning is repaired in under 30 minutes, ensuring no disruption to the lunchtime rush

A 50mm plastic drain pipe connected to the back of the dishwasher was found to have a split around its entire diameter, leaking water all over the kitchen

Defect

Staff arrived at the golf club on Sunday morning to discover a 50mm plastic drain pipe at the back of the dishwasher leaking water all over the kitchen floor through a split in its diameter.

Sunday is the busiest day of the week for the club, with members playing, guests drinking, and the restaurant serving brunch and lunch.

Without a working dishwasher, the club faced having to call in another member of staff on their day off, whose only role would be to wash dishes by hand.

The golf club called their drainage contractor, who kept a stock of Sylmasta product on his van - including a SylWrap Universal Pipe Repair Kit

Solution

The club contacted the contractor who serviced their drains to see if he had a solution. The contractor kept a stock of Sylmasta products on his van, including a **SylWrap Universal Pipe Repair Kit**.

Wrap & Seal Pipe Burst Tape was wrapped around the entire diameter of the split. It fused together, forming a solid rubber band with pressure resistance to 25 bar; more than enough for the 2 bar drain pipe.

Wrap & Seal was wrapped around the split, sealing the leak. The repair was then completed with application of SylWrap HD to provide a rock-hard, impact resistant layer of protection

The repair was then reinforced with **SylWrap HD Pipe Repair Bandage**. After being activated with water, SylWrap HD set rock hard in minutes to provide an impact resistant layer of protection.

Result

Completing the repair took under 30 minutes from the contractor's mid-morning arrival at the club.

Not only did this mean the dishwasher was operational well before the lunchtime rush, but there was also time to run the dirty dishes from breakfast without the need for any cleaning to be done by hand.
